Manufacturer's Declaration

Palziv foam materials(excluding EV, FR, AS, CD, SD grades) – in Vizion & Fuzion form (AKA PA & GA), comply with the following Food and Drug Administration (FDA) regulations:

1. Palziv standard foams are manufactured from polyolefin resins complying with 21 C.F.R.177.1520 (C)¹ section 2
2. All Palziv standard polyethylene foams meet C.F.R. 178.3010².

3. All Palziv Polyethylene foams at densities of 80 Kg/m (5pcf) and higher, comply with C.F.R. 177.1210, "Closures with sealing gaskets for food containers."

We do, however, recommend that customers test the particular foam to be used, to assess its acceptability to a specific application.

Please refer to the MSDS for the materials' content

Authorized by:

Baruch Zur
CTO Palziv

A handwritten signature in black ink, appearing to read 'Baruch Zur', is written below the printed name.

¹ Substances for Use as Basic Components of Single and Repeated Use Food Contact Surfaces-Olefin polymers.

² INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS-Adjuvant substances used in the manufacture of foamed plastics.
